Education

Protecting your School or Campus is no easy task. You're responsible for protecting the most valuable assets at your school. Oliver Communications comprehensive video surveillance and security solution will give students, teachers and personnel a safer environment and a secure feeling so they can focus on the reason for being there, Education! With end-to-end solutions that cover every element of video surveillance and access control on school buses and school grounds or campus, Oliver Communications security team will work with you to identify your individual needs and the specific equipment to fit them. While staying within your working budget, Oliver's team will design and install a security solution with the latest technology, quality and reliability to provide the peace of mind to everyone on campus.

The forward-thinking approach that our professionals bring to the table will help you seamlessly integrate all of your security solutions throughout your entire campus. We can customize a security solution with video surveillance systems, access control, emergency call stations and more. We have a solution for everyone from small town school systems to large school districts, private schools, to colleges and universities.

Oliver Communications security team along with our cabling infrastructure experts and electricians, can provide the entire solution. Oliver's products and capabilities include:
